Stallion Syndications Revisited

By John Alan Cohan, Attorney at Law

Stallion Syndicates have been a popular vehicle for people engaged in breeding activities for over 40 years. This is a mode of co-ownership that applies to all types of horses in all breeds.

During the 1980s, many people syndicated high quality stallions as investment and tax strategies. These were thought to have the advantage of spreading risks of loss and sharing maintenance costs, as well as attracting investors to situations that could generate significant profits for all parties involved.

Today the Securities and Exchange Commission continues to regard stallion syndications as "non-securities," which means that the promoter can freely advertise and solicit the general public to buy stallion shares as long as the agreement is in correct legal form. Each investor becomes a co-owner of a fractional interest in the stallion, and is entitled to breeding rights. Care of the stallion is delegated to a Syndicate Manager who has day-today charge of the animal.

There are tax benefits for all members of a stallion syndicate. Each investor is entitled to depreciate the cost of the fractional interest, and to deduct maintenance costs from one's income tax. In addition, investors may decide to lease a broodmare, and those costs are tax deductible. Of course, this is the caveat that the taxpayer has the intention to be engaged in an activity for profit.

The principal business advantage of a Stallion Syndicate is that each co-owner is assured a long-term breeding rights to the stallion at a fixed price, usually with a live foal guarantee.

Drafting a Syndicate Agreement is crucial to any horse syndication because there are important legal considerations, not to mention the importance of making the agreement compatible with Federal tax law considerations.

The Syndicate Manager is required to keep accurate books and records of the Syndicate to show all income

and disbursements involved, and other information pertinent to the Syndicate, including veterinary reports, breeding schedules, the pedigree information of mares nominated to the stallion, and other details. Each co-owner, in turn, must keep separate business records in accordance with IRS regulations applicable to horse activities.

A good Syndicate Agreement will specify the duties of the manager what sort of voting rights are conferred on the co-owners, and what sort of marketing plan or strategy will be implemented to promote the foals of the stallion produced under the Syndicate.

Installment payments are often available, making it affordable to start up a horse activity.

Mortality insurance on the horse is factored into the annual maintenance fee, but if some members don't pay for their share in full, the promoter may require them to obtain separate mortality insurance on their shares, with the loss payee designated as the Syndicate manager.

The Syndicate is not a separate taxpaying entity, nor is it a partnership entity and each co-owner is responsible for filing his or her own tax return in which deductions are made.

Stallion syndications today are still a viable means to cut down on costs, and can be a prudent economic alternative to outright ownership of high quality stallions. Legal counsel should be consulted to properly draft Syndicate Agreements and to insure that applicable tax and securities laws are taken into account.

Stem Cells and Regenerative Medicine

PAY ATTENTION

As a veterinarian and cell biologist trained during the 1980s I have witnessed first hand the transformative impact that molecular biology has had on biomedical research, agriculture, and medicine. Characterizing molecular biology as “transformative” is appropriate. Consider how recombinant DNA methods, transgenic, and now genomics have impacted discovery science, farming practices, the pharmaceutical industry and clinical diagnostics. The process is not winding down--actually just the opposite. We are entering an era of personalized medicine. Along with medical history a clinical exam, and diagnostic tests, the evaluation and care of patients will increasingly include consideration of an individual's genome. Factoring in of the genome is already the case for known genetic markers with established disease associations. The full resequencing of a patient's DNA (genome), an overall evaluation of gene expression in clinical samples at the RNA or protein levels, and broad screening of metabolites all appear to be coming to clinical practice in the not-too-distant future. Veterinarians and physicians will use this information to help generate the differential diagnoses list for a patients, customize therapeutic strategies, and improve prognostic assessments.

In contrast to molecular biology I have more recently recognized that cell biology also will likely have a transformative impact on the practice of medicine in a similar, not-too-distant time frame. Data are now accumulating from several medical disciplines that multipotent “stem cells” have the potential to facilitate tissue repair. I am not a stem cell expert y any stretch but two broad mechanistic categories appear to be emerging.

The first category includes indirect mechanisms. Stem cells introduced into a patient have the potential to express and deliver the right mix of factors (cytokines, chemokines growth factors, etc.) at the

correct concentrations and with the appropriate molecular structure to positively modulate the patient's immune response and tissue repair capabilities. The patient's own cellular resources for repair are mobilized and activated. Destructive catabolic (tissue breakdown) processes are switched to a self-sustaining anabolic (tissue growth) response. Interestingly, the introduced stem cells may not need to remain viable in the lesion area for a long time to affect his switch.

The second category appears to be more challenging. It involves direct mechanisms in which the introduced stem cells themselves are expected to differentiate into the correct cell types synthesize and organize the appropriate extracellular matrices, and regenerate normal tissue structures to achieve tissue repair. Both mechanisms work toward a restoration of tissue structure and function.

The take home message that I now embrace and will encourage others to consider is “pay attention.” Stem cells and regenerative medicine are poised to yield major clinical advances. Many basic questions remain unanswered and there is much to learn. Our discovery process needs to be driven by rigorous scientific methods an hypothesis-driven experimental biology However, through access to our diverse patient population, veterinary medicine has every opportunity to lead development and progress in these important ares. Yes--pay attention. ❖

AZ RIDGE'S RACE AND (STAKES) RECORD

Year	Age	Starts	1st	2nd	3rd	Earned
2011	at 2	8	2 (1)	3	2 (1)	\$56,047

Lightning struck twice, at the same race track and for the same owners. Sawyer Cattle Company watched Page Springs win the first division (fillies) of the ATBA Sale Stakes, then watched the her stable mate Az Ridge win by a nose over A Political Time.

Hip number 108, a Kentucky bred Toccet colt was consigned by Double R Consignment, Agent I, to the ATBA 2010 sale. The bay colt is an early foal, born in February and out of a stake-placed mare earning \$246,415. Although he does not possess the speed of Page Springs he certainly has the heart of a winner. Racing for a purse of \$59,756, Sawyer Cattle Company was able to mark their \$8,500 investment paid in full.

Numerous friends and family filled the winner circle, sharing in a day few other owners have experienced, watching two very talented two-year-olds, each win a stake race on the same day. Lightning can and did strike twice!

PAGE SPRING'S RACE AND (STAKES) RECORD

Year	Age	Starts	1st	2nd	3rd	Earned
2011	at 2	5	5 (3)	0	0	\$138,060

Page Springs. . . everyone knows of her and everyone wants to own one just like her. Quick from the gate, super fast in the first furlongs, dares anyone to catch her, and digs in if she hears the sound of any horse nearing her territory. Seven lengths the best in the ATBA Spring Sale Stakes, three and one-half lengths in front in the Prairie Gold Lassie Stakes, and three and one half in front in the Fall Sale Stake.

Is there two-year-old faster than Page Springs? It is true, you can't beat what you can't catch., and so far Page Springs hasn't been caught. Five races, and five wins. Owned by Sawyer Cattle Company and trained by Dan Mc Farlane, Page Springs is a daughter of Rocky Bar, and a household name.

A. T. B.A. 2011

Fall Yearling & Mixed Sale Results

The total number of Thoroughbreds offered for sale was down, but buyer optimism was at a high level. Quality horses passed through the sale ring and buyers rewarded the consigners. The average yearling price was the best since 2001. Our consigners brought some well bred, well conditioned and prepared yearlings to the sale and the buyers were happy with the quality.

Yearlings in the 2011 sale averaged \$7,820 -- up from the 2010 average of \$4,075. "The Best Little Sale in the West" yearlings were up a whopping 52%.

Hip number 43, a chestnut colt by Officer entered the sale ring, Auctioneers T. Scott Caldwell and Cris Caldwell had no trouble getting bids, with the final drop of the gavel at \$60,000. John Campo III purchased the sale topper.

Mark D. Breen purchased hip number 82. A bay colt by Discreet Cat out of the Stakes willing mare Prom Date for \$40,000.

The results are as follows:

GOOD NEWS FOR RILLITO PARK RACE TRACK

We wish to share our good news. On November 19, 2011 the Historic Sites Review committee of the Arizona Historical Society approved the application for Rillito Park (88 acres including Rillito Park Race Track) together with the Rukin Jelks House (also known as the Mary Shoemaker House) located on a Wildlife Corridor adjacent to the track. This application will now move forward to the National Historic Society for approval as soon as possible. In 1943 Rukin Jelks purchased this land, built his home and began racing. Rillito is the home of Quarterhorse racing and the photo-finish method of determining the winners. Rillito deserves to be remembered and “live-on” because this where it all began.

Saving Rillito has not been easy and we will not give up. The application was submitted by “Save Historic Rillito Race Track” and Pima County Horsemen’s Association” - two non-profit organizations currently running racing at Rillito. Racing begins January 28, 2012 and runs through March 25, 2012 --weekends only with the exception of Super Bowl weekend. We will not be racing that weekend, however the Arizona Quarter Racing Association will hold a Mixed Horse Auction on February 4th at 1:00pm at the track. The 2012 race meet represents Rillito’s 70th birthday.

Please join Rillito for the celebration!!!!

BULLDOGGER

2007 Dark Bay or Brown - Dosage Profile: 5-1-10-0-0; DI: 2.20; CD: +0.69

RACE AND (STAKES) RECORD

Age	Starts	1st	2nd	3rd	Earnings

Nominated to Arizona Stallion S., Breeders' Cup

Track Talk

Turf Paradise jockey **Gary Baze** suffered a broken vertebrae in a training accident Tuesday morning, October 4th and underwent surgery at a nearby hospital. Wife **Vicky Baze** also a rider at Turf Paradise reports Gary is progressing as he should.

Retired Turf Paradise clocker **Jim Wilson** passed away in October.

Rillito Park Race Track will open January 28, 2012 and race through March 25, 2012. Weekends only. Post Time 1:00 PM
Gates open 11:00 am.
Clubhouse \$8
Grandstand \$5
Free Parking
Valet Parking \$5
Phone 520-887-4386

Arizona Department of Racing Director Lonny T. Powell has resigned effective December 31st. **Bill Walsh** from the Department of Racing will serve as interim Director of Racing.

The **Arizona Racing Commission** is in the process of accepting resumes and interviewing candidates for his replacement.

Director Powell has accepted a position with the **Florida Breeders Association**.

Jockey Perry Whetstone was injured in a morning training

accident. It will be several months before he is able to ride again.

Triple AAA Ranch has moved **Rocky Bar** to California, **EZ Dreamer** will stand at the Triple AAA Ranch along with **Top Hit**.

Two new stallions have arrived at the **Fleming Thoroughbred Farm** in Willcox. **Bulldogger** is owned by a partnership and 2012 will be his first year at stud.

Margie's Wildcat who has several winners racing at Turf Paradise, has also moved to Willcox to stand in 2012. Margie's Wildcat previously stood at **Roseglade Farm, Wilmore, Kentucky**.

A **U.S. Bankruptcy Court** judge has ordered the sale of **Yavapai Downs. Cunningham & Associates** has been assigned the task of seeking bidders for the racetrack property, along with its adjacent auto-racing venue **Prescott Valley Raceway** and the surrounding **Yavapai County Fairgrounds**. The fairgrounds property consists of eight separate parcels totaling 125 acres.

For the second consecutive year there were not enough two-year-old fillies entered in the **Arizona Breeders Futurity** to hold trials. Sixteen colts and geldings entered, six juveniles qualified from each heat for the futurity to held

November 26th.

Nomination blanks are in the mail for anyone who would like to run for the Board of the ATBA. Please call the ATBA office if you need a nominating blank.

Happy Holidays everyone!

A purse of \$39,200 does not qualify for black type according to todays racing industry requirements. However, if you are going to use the name Walter R. Cluer on a race one would believe it should automatically receive black type. Walter Cluer founded Turf Paradise and served on the Board of Directors of the Arizona Thoroughbred Breeders Association. Mr. Cluer in addition to owning Turf Paradise raced eight stakes winners, including six Arizona-breds and he bred four additional added money winners. With Mr. Cluer's passion for racing in Arizona and the horses that Arizona has produced it is only fitting that One Call, Arizona's Champion three-year-old colt in 2009 should capture the Walter Cluer Memorial Stakes in 2011.

Much of the success owners Ken Person and Thomas Johnson have experienced has came from the training and conditioning of One Call by Ken Person. One Call is now a five year old, and turning six is just a few months away. Many six year-olds would be wearing wraps on the front legs for support, but One Call comes to the races with a shinny coat and clean legs. All the signs of a great care taker and conditioner.

Here's to many more wins for one of Arizona's home-breds. ❖

the ARIZONA THOUGHTBRED BREEDERS ASSOCIATION

The A.T.B.A. was organized in 1967 as a non-profit organization "dedicated to the betterment of the Thoroughbred industry in the State of Arizona". Since 1967 the Arizona Thoroughbred Breeders Association has had an influence on almost all aspect of racing laws and regulations which has benefitted all horsemen running in the State of Arizona.

The goal of the Arizona Thoroughbred Breeders Association is to serve its membership and to grow into a strong viable organization with the ability to purchase land and build our own sales pavilion.

Fifteen directors serving for three years each on a rotating basis, govern the policy of the Association. The directors also assume duties during the year such as attending Arizona Racing Commission meetings and attend legislative matters pertaining to our industry.

The main source of income for the A.T.B.A. is our annual fall Thoroughbred mixed sale. Consignments come from all over the western part of the United States. All yearlings that are consigned and pass through the sale ring become eligible for the A.T.B.A. Spring & Fall Sales Stakes which are run the following May and October as 2 years old with an estimated purse of \$75,000. (May - \$25,000 bonus paid to an Arizona-bred winner, October - \$100,000 bonus paid to an Arizona-bred winner)

Vaughn Calvert Ranch

Sideburn and **Bierstadt** will return home to Vaughn Calvert Ranch for the 2012 breeding season.

We want to express our sincere thanks and appreciation to Marvin, Gerald, Wende and all at Fleming Thoroughbred Farm for all they did for Sideburn, Bierstadt and Vaughn Calvert Ranch during our time with them. There are truly no words that can express our thanks and admiration for all they did for us.

Lee, Elaine, Brian and Lexi

For those mare owners interested in breeding to a son of **Seeking The Gold** or to a son of **Hennessy** please inquire.

Sideburn

Seeking the Gold / Dixie Pearl / Dixieland Band

Bierstadt

Hennessy / Tricky Game / Majestic Light

Lee Vaughn

Arizona Stallion Standings

Statistics compiled by Bloodstock Research Information Services, Inc., and cover North American racing only. While every effort is made to prevent errors and omissions, Arizona Thoroughbred can not guarantee their complete and total accuracy. Included are sires based in the state of Arizona. Deceased, retired or relocated sires will remain in the rankings until after their last Arizona sired runners have raced as two-year olds.

Statistics include racing through November 10, 2011

PEDIGREE CROSS INDEX

This Pedigree Cross Index allows a breeder to nick, inbreed or outcross his broodmares by easy reference. Indexed are the names of sires and dams included within the first three generations of all the stallions in the 2012 Stallion Directory.

Example: AFFIRMED - Charlie Barley, Mystery Storm, Peteski

In the above example, Affirmed appears in one of the first 3 generations of all the stallions listed after him.

Suppose a breeder has a mare that is a granddaughter of Mr. Prospector or has crosses of that sire in a mare's pedigree. He may want to breed her to a stallion with Northern Dancer blood to take advantage of the Northern Dancer--Mr. Prospector nick. By looking up "Northern Dancer" in this index, he can quickly see all the stallions in this register that have Northern Dancer appearing in one of the first three generations of their pedigrees.

If a breeder's mare is a granddaughter of Seattle Slew, he may wish to inbreed to that stallion and thereby get more of Seattle Slew's makeup in the foal. By checking "Seattle Slew" in the index, the breeder can readily find all the advertised stallions that have Seattle Slew in their pedigrees.

What if a breeder's mare is already inbred or linebred? She might have 2 or 3 crosses of Deputy Minister in her first four generations for example. The breeder may want to make sure the stallion he chooses for his mare has no Deputy Minister or no Deputy Minister up close in his pedigree. By looking up "Deputy Minister" in the index, he can readily see the stallions in this Stallion Register he should avoid for his mare.
