# The Powers of the IRS Commissioner

By John Alan Cohan, Attorney at Law

Wouldn't it be nice if the horse industry had an advocate in the White House? Ann Romney, horsewoman, could be just such an advocate as First Lady. Her horse competed in the Olympic event of dressage, and she has long been an advocate for the use of horses for physical therapy.

The President has substantial power to implement policy within the IRS, and the IRS is the enforcer of tax laws. The IRS Commissioner is appointed by the President, with the consent of the Senate, for a five-year term. The Commissioner administers, manages, enforces, and supervises the application of the IRS laws and related statutes. The term of the present IRS Commissioner, Douglas Schulman, expires in November, and a new appointee will be named by the President, subject to Senate confirmation.

Section 183 of the IRS Code pertains to activities "not engaged in for profit." This provision is used to disallow deductions for horse owners and all other farming-ranching activities as well as other ventures ranging from multi-level marketing to air charters. How this provision is applied and interpreted is something that the IRS Commissioner can and does influence.

The recent trend in audits has been to regard horse activities as hobbies. A document relied on by auditors, referred to as the Market Segment Specialization Audit Technique Program Guide ("MSSP") encourages auditors to presume that taxpayers in the horse industry are motivated by personal pleasure and recreation.

The document directs auditors to inquire about business plans: "The taxpayer should have a formal written plan. This plan should demonstrate the taxpayer's financial and economic forecast for

the activity. The plan should show a short range and long range forecast for the activity. The forecast should allow for changes due to potential unforeseen and fortuitous circumstances." Auditors are asked to be on alert for "canned" business plan documents.

The IRS document also advises revenue agents to be on alert for bogus appraisals that show how improvements such as barns, arenas, pastures, fencing, breeding sheds, stalls, storage facilities, and landscaping help to increase the value of the taxpayer's farmland.

Revenue agents are also advised to challenge the taxpayer's "material participation" in the horse activity. Under this legal test, you are permitted to deduct losses relating to a horse partnership against your other income only if, among other things, you "materially participate" in the activity. This is often a difficult standard to meet if professional trainers and other managers are hired to attend to important details such as training and development.

The IRS has a reputation for indifferent customer service, long wait times on calls, and abuse towards taxpayers who are supposed to be served. In situations where taxpayers have a history of losses, revenue agents tend to view business records of such taxpayers with heightened scrutiny. It is important to keep hard copies of all evidence that shows your manner of keeping records and that might reflect your business motives. For example, keep originals of magazine advertisement (including the entire magazines in which they appear). If you update written business plans, it is important to retain the earlier versions (all of which should be dated) rather than superseding them in a computer generated update.

*Continued on Next Page*

With respect to payment to vendors and trainers, it is often the case in the horse industry that some vendors and trainers do not issue formal invoices, but you should always insist on obtaining invoices from trainers and other personnel and vendors, and keep them as part of your permanent records.

You should maintain a dated customer list consisting of persons who have contacted you regarding horse sales. It is helpful to also keep dated memoranda of telephone conversations to memorialize phone conversations with potential customers. All sales of horses, leases, breeding agreements, and other contracts should always be in writing. All contracts should be completely filled out with the parties; names and the name of the horses, and the date of the contract. You should keep signed and dated copies of all such documents rather than keeping computer generated forms of them.

Audits are the "lifeblood" of collecting additional revenue for the U.S. Treasury, but IRS philosophy has, for many years, made it difficult for taxpayers to defend themselves. In the event you are audited by the IRS you should seek legal advice at the earliest stage and work with legal counsel and your accountant to convince the IRS of your intentions.

Audits are always a difficult experience for taxpayers. Changes in IRS policy depend on who the next IRS Commissioner will be, and in turn who the next President will be.

# Dorsal Displacement of the Soft Palate

By: Dr. Patricia Provost

## Overview

When a horse makes an unusual noise associated with respiration during exercise, you should always take it seriously. Some noises indicate a self-limiting problem. However, noises can also indicate that a more significant airway obstruction, like constriction or narrowing, is developing, possibly even requiring surgery.

Noises, described as blowing, whistling, roaring, gurgling, and fluttering are created by turbulent air flow, which results from a change in the shape of the internal airways, sometimes very slight. Abnormalities in just about any structure of the nose, throat, or sinuses can cause noise and exercise intolerance. Only a thorough examination including endoscopy can sort them out.

## Dorsal Displacement of the Soft Palate

Dorsal displacement of the soft palate (DDSP) is the inappropriate positioning of the soft palate above the epiglottis during breathing.

The soft palate is an extension of the hard palate and both serve as a barrier between the nasal passages and the mouth. It is not rigid and moves upward (“dorsal”) when horses swallow to form a channel between the mouth and esophagus. This prevents food and water from entering the nasal passages. When horses are not swallowing the soft palate should remain beneath the epiglottis. This streamlines air movement from the nose to the windpipe (trachea) and back.

There are two basic forms of DDSP. In the first type, dorsal displacement of the soft palate is present continuously. The horse appears unable to ever position the soft palate beneath the epiglottis, as in a normal horse. These horses may have other symptoms including, but not limited to, inability to swallow, coughing when eating and abnormal respiratory noise during slow exercise.

In the second form, the soft palate displaces dorsally only during exercise, or intermittently. This displacement usually occurs abruptly and without warning. This is the most common form of DDSP and it occurs primarily in racehorses (thoroughbreds and standardbreds) at race speeds.

The inappropriate dorsal position of the soft palate during exercise significantly reduces the diameter of the airway and can triple the effort that it takes the horse to breathe.

The position of displaced soft palate in the airway results in a characteristic gurgling or flutter respiratory noise that is loudest on expiration. The horses are said to “choke-up” or “swallow the tongue,” and since the horse cannot breathe through his mouth, until he swallows a few times and replaces the soft palate, he cannot breathe. There are, however some horses that displace their soft palate that do not produce an abnormal noise.

To date there is no known single cause of DDSP. Inflammation of the airway, small epiglottic size, and inflammation of or trauma to the nerves and muscles responsible for soft palate position or movement have all been proposed as possible causes.

## What to Watch For

- Exercise intolerance
- Poor performance
- Sudden respiratory noise and simultaneous loss of exercise tolerance

## Diagnosis

All racehorses that have a history of poor performance in the absence of lameness should be examined for DDSP. It should also be considered in all horses, regardless of their occupation, if the horse has a history of exercise intolerance and produces an abnormal respiratory noise during exercise.

- Treadmill endoscopic exam. Direct visualization of the upper airway using a fiber optic endoscope that is passed up the horse’s nose is necessary to evaluate the position of the soft palate. Exercising the horse on a treadmill during the endoscopic examination is the most definitive method to make the diagnosis and is the best way to identify those horses that displace the soft palate only during exercise.

- Closed nostril endoscopic exam. In the absence of a treadmill endoscopic examination, the horse can be evaluated using the endoscope while holding his nostrils closed. As the horse increases his effort to breathe in air, affected horses will sometimes displace the soft palate and begin to breathe through their mouths.

- A radiograph (X-ray) of the area may also be taken to confirm the size of the epiglottis. A small epiglottis may predispose to DDSP.

- For those horses that have continuous DDSP, endoscopic examination of the airway will be performed (including the guttural pouches) as well as a complete neurologic evaluation. Radiographs may be taken to check for the presence of the foreign body, bone fracture or infection, and abnormal epiglottis position and function.

- Recently sound recordings of the upper airways made during routine training or treadmill exercise, have been used for diagnosis of DDSP versus other upper airway obstructions. DDSP can be distinguished on the basis of increased levels of specific sound frequencies, and greater noise production during exhalation. This method can be helpful since DDSP can be difficult to reproduce in some horses with intermittent signs, and audible sounds cannot always be detected with the human ear.

## Treatment

- **Use of a tongue tie and head halter.** These conservative methods function to keep the tongue pulled forward and mouth closed. The tongue is pulled forward and tied in place to the lower jaw of the horse using a soft cotton, nylon or leather band. Because of its attachments, pulling the tongue forward also brings the epiglottis forward. This creates a more secure positioning of the epiglottis above the soft palate. Using a head halter, which is pulled tightly, will keep the horse from opening its mouth and pulling its tongue further back into the mouth, a movement that sometimes causes DDSP.

- **Staphylectomy.** This surgical procedure in which a crescent shaped piece of tissue is removed from the free border of the soft palate. Removal of the edge of the soft palate shortens the soft palate and therefore reduces the amount of soft palate that obstructs airflow. As it heals, the cut edge may also become stiffer and more resistant to abnormal displacement.

- **Myectomy.** In this surgical procedure a section of the paired throat muscles are removed via an incision in the ventral mid-neck region. These act in part to retract the larynx and may predispose to displacement of the soft palate. Removal prevents the retraction.

- **Llewellyn procedure.** In essence this is the same procedure as the myectomy only it is performed at the level of the larynx. The tendon of insertion for both throat muscles are severed along with removal of a small section of other muscles. The procedure is often performed in conjunction with the staphylectomy procedure.

- **Epiglottic augmentation.** This procedure can be performed in horses with confirmed epiglottic hypoplasia. A synthetic paste is injected beneath the epiglottis to stiffen it. The increase in stiffness helps to prevent displacement of the soft palate.

## Home Care

Home care is tailored for each specific surgical procedure. Horse’s undergoing a staphylectomy are generally treated initially with antibiotics and pain medications along with rest. Stall rest with hand walking is prescribed for the first 3 to 4 weeks, then a gradual return to regular exercise.

Horses undergoing a myectomy procedure are also treated with antibiotics, pain medications and a period of rest. Regular exercise is generally resumed in two weeks.

Success rates for the treatments range from 50 to 60 percent.

## Preventative Care

As there is some concern that infection of the upper airway may lead to abnormal function of the nerves and muscles responsible for airway, function, proper treatment and adequate rest should be provided for horses with upper airway infections. This may reduce the incidence for soft palate displacement. There is no known prevention for dorsal displacement of the soft palate.

In 1923, Ralph Andersen, was born in a small farming town called Julesburg, Colorado. He grew up on a wheat farm, where most of the heavy work was done by a team of horses. As a young man, he joined the Army and served in World War II.

After the Army he was offered a chance to play professional baseball, but turned it down and traveled to California to work for a horse trainer named Colonel Carr. There, along with his friend Taylor Powell, he learned his trade and became a horse trainer.

On opening day at Turf Paradise January 7, 1956, Andersen won the second race on the card with "Colonel Brooks" and 45 years later, he won the second race with "Dee Expo" on January 7, 2001.

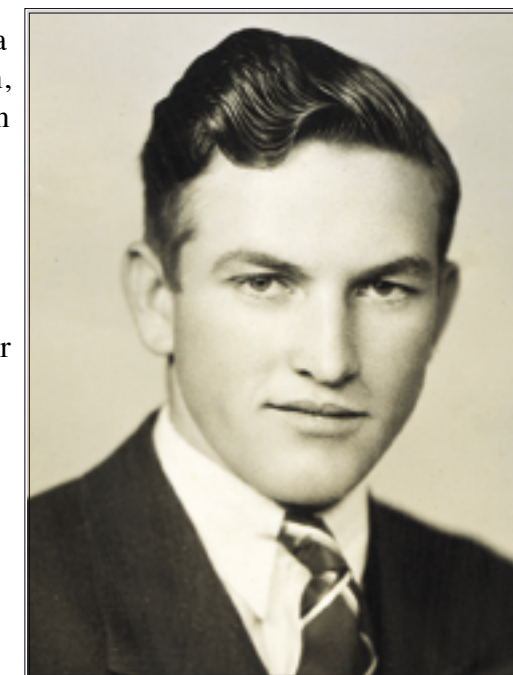

Now, some people may think this is an amazing coincidence, but what happened between the dashes of 1956 - 2001 is quite another amazing achievement. The Andersen home is decorated with numerous awards, trophies and multiple stakes winning photographs, highlighting a lifetime spent loving a sport that excelled Ralph to the top of this game.

### 1968 & 1969 Were Very Good Racing Years

Ralph kicked off the Turf Paradise fall racing season by winning four races in one day on November 23, 1968.

Hal Clay and Stuart Struck commissioned him to purchase horse's from the Keeneland Sale. He bought 6 Thoroughbreds and 5 of those horses went on to become stakes winners. Andersen had a keen eye for selecting juveniles and because he galloped

most of his own horses, he had an advantage in training his youngsters to their greatest potential.

One of them was a filly named Ribula. She broke the 5 furlongs track record at Hollywood Park, winning the Junior League Stakes in 1969. Her time of, 56.4 broke the :57 flat records set back in 1955. She also, won the Arizona Downs Sprint Championship in 1972.

Another, colt named Barboon, became a multiple stakes winner and held the track record at Turf Paradise for 6 1/2 furlongs, 1:14.1. Barboon, was later entered into stud service and was very successful.

In 1969, Ralph won the Phoenix Gold Cup, with Nike Point. At the time, the Gold Cup carried a purse of \$5,000, but Andersen captured the 1978 Phoenix Gold Cup with "Sail on By", which was the first \$100,000 Stake race at Turf Paradise.

Memories of a True Horsemen

I had the pleasure of interviewing Ralph’s wife Gloria and daughter Sherry Walker, as I sat at their table in the club house one afternoon. I asked Sherry to share with me some of her fondest memories of her Dad. Although she got a little teary eyed, she smiled and said, that Dad liked to keep his best horses in the first 5 stalls and always had a warm tack room (two heaters going in the winter time), with coffee brewing and donuts to start the morning.

She spoke of her first jobs that her Dad assigned to her, which was to watch the mares during foaling season. The ranch had an apartment next to the foaling stalls, with a window and a small step stool for her to stand on. Sherry would watch closely as the mare would begin her labor, and at the precise moment, her duty was to wake up the entire household to help the mare deliver her foal.

Her second job was driving the feed truck to serve over three hundred horses grain. Sherry showed great potential working on the ranch, and Ralph rewarded her with a blue Pontiac Firebird (her first car) after “Hasty Double” won Horse of the Year at Turf Paradise. Sherry is carrying on the legacy of her father, by being involved with the Thoroughbred breeding industry and with her love of horse racing.

Gloria Andersen gave me a wealth of information about their horses and provided lots of wonderful photographs of their outstanding winners.

All of Ralph’s achievements span from 1948, to his retirement in 2006. He was 82 years old when he retired from training, but continued to attend the races.

Ralph Andersen was best know as a gentleman cowboy, who enjoyed his success quietly. He was an easy going guy, who had a passion for racehorses and a niche for starting juvenile Thoroughbreds. He will be greatly missed by his wife Gloria, daughters Karey Daugherty, Sherry Walker, step sons Gary and Gregg Kortz and many other family members and friends.

The Andersen Family provided their favorite win photo of King Justin on the following page. King Justin is a prominent Arizona-Bred racehorse with career earnings over \$318,000. The win photo depicts a “New Track Record” for 4 1/2 Furlongs in :50.1, set in 2006.

*October 26, 2012*

Lyman H. Rollins, 92, returned to be with his “Beautiful Lady” on October 26, 2012.

Lyman was born January 19, 1920 in Cumberland, Wyoming, and grew up as a child in the Bridger Valley area of that state, learning how to be a hard-working cowboy at an early age.

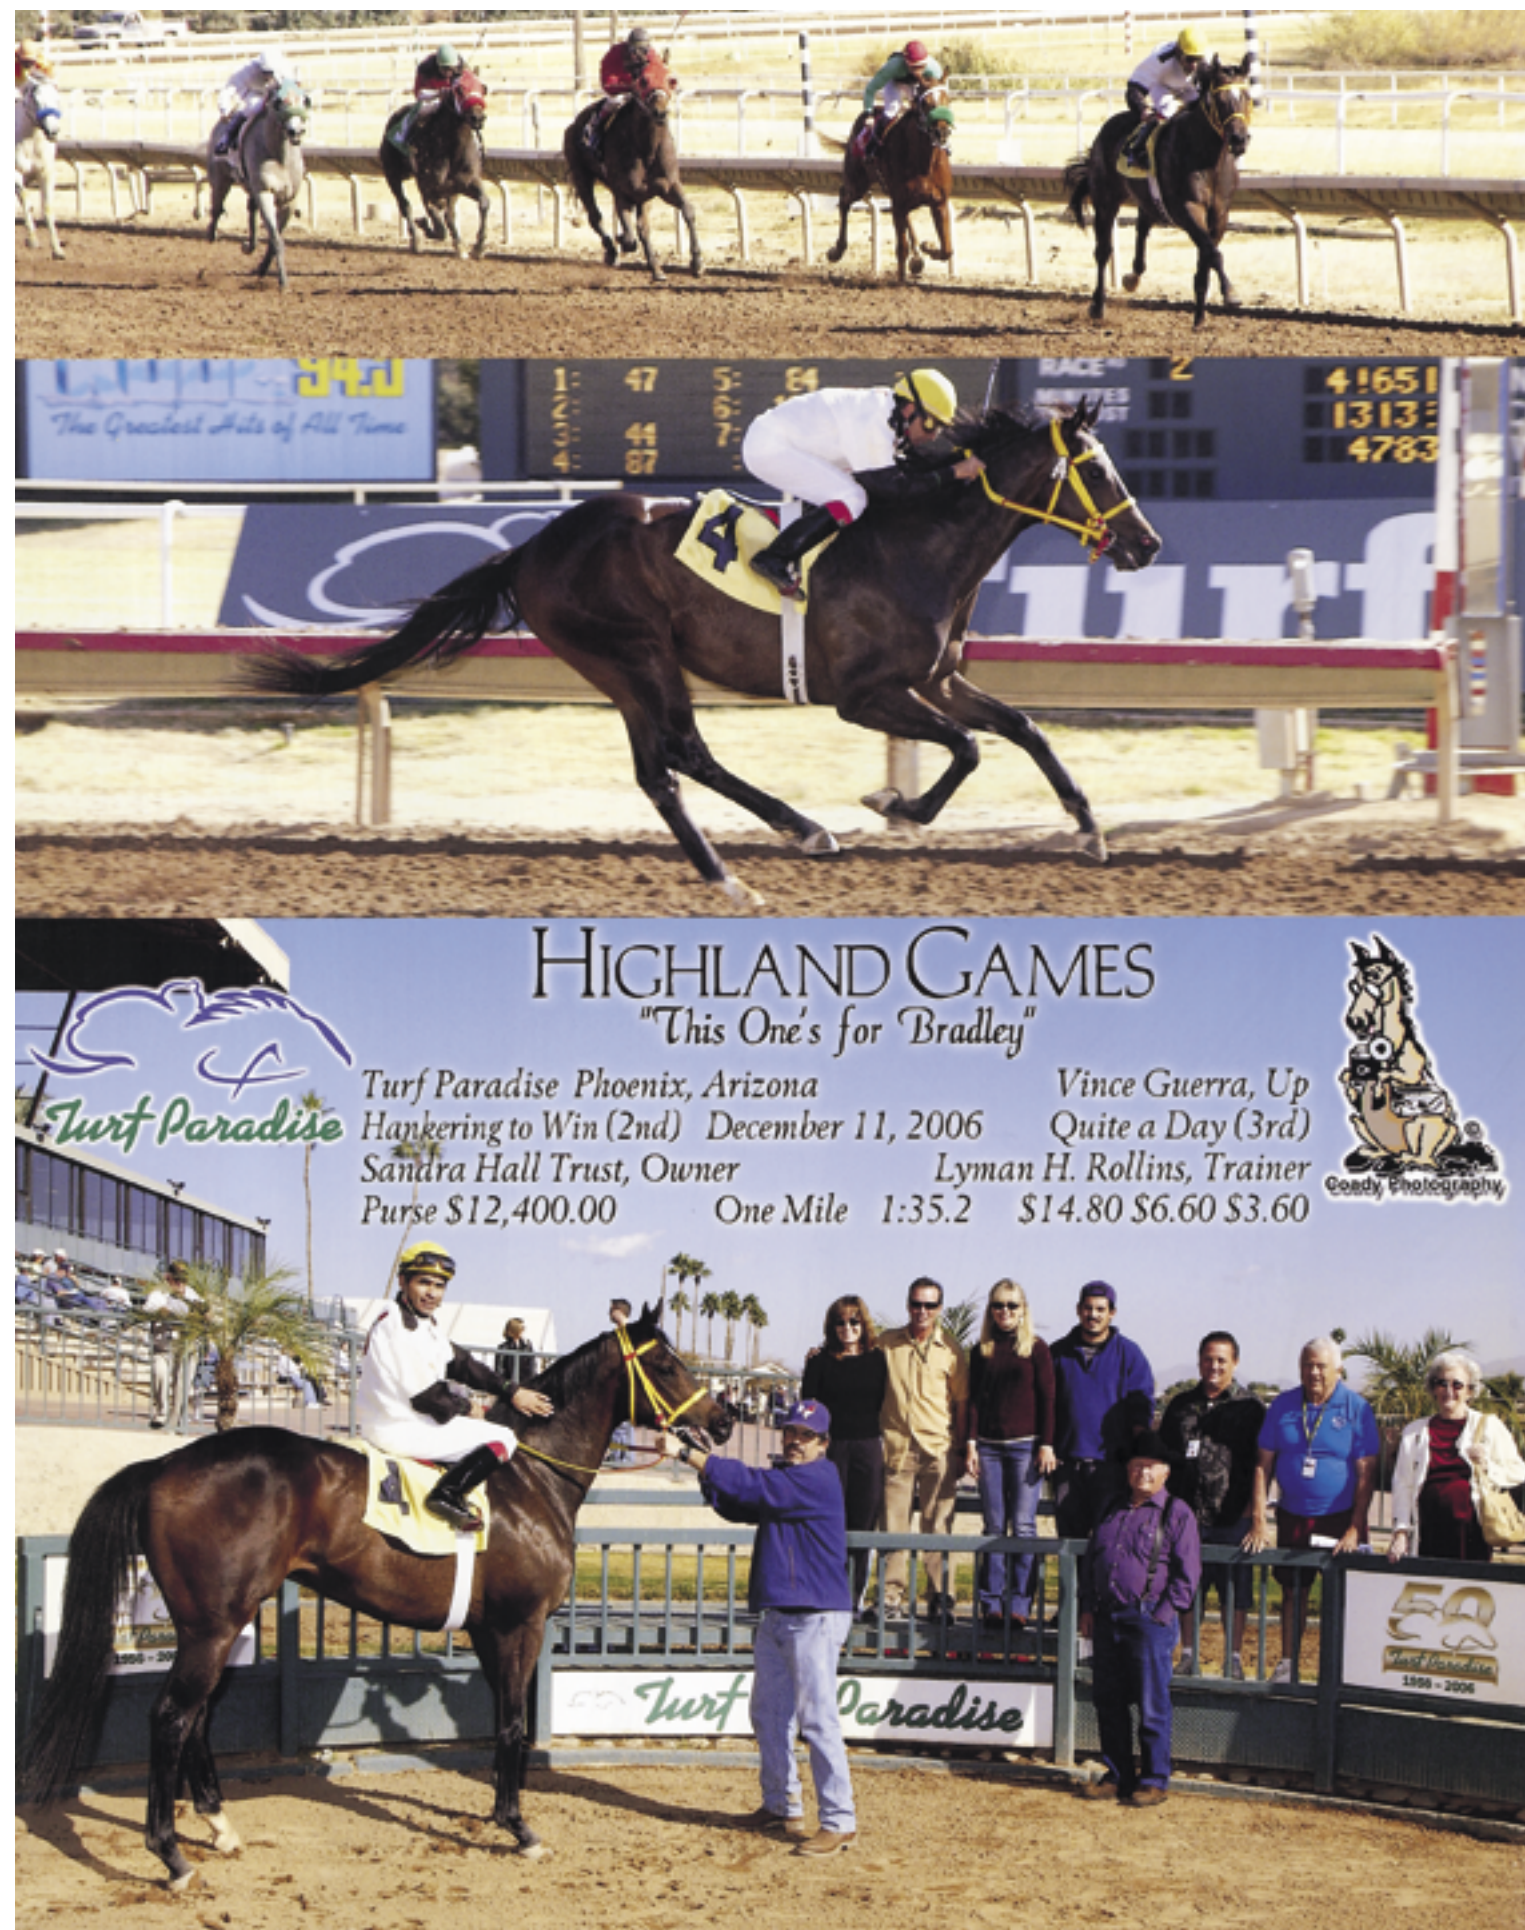

He married Lois Mae Bradshaw in the Salt Lake City, Utah, LDS Temple on September 25, 1940. They settled in Salt Lake, and he worked in the family’s glass shop, while moonlighting at the horse ranch breaking yearlings. He served in the Navy during World War II.

After the war, Lyman and his father sold the glass shop and began training thoroughbred race horses full time, and a career that consumed the rest of their lives. Lyman finally retired last year at the age of 91. His career took him to most of the race tracks in the west, and some in the east. He trained horses that set track and world records, served faithfully on the board of the Arizona Thoroughbred Breeders Association, and received many local and state honors, which included being inducted into the Nebraska Racing Hall of Fame, and receiving a lifetime achievement award from the State of Arizona Racing Commission.

Although Lyman loved and excelled in his career, his first love was his wife and his posterity. Lyman is survived by his children, sons Brent Rollins (Francie) of Cave Creek, Arizona and Val Rollins (Joyce) of Layton, Utah and daughters Nancy Rollins and Stormie Menniti (Bill), and daughter-in-law, Sharon (Bradley) Rollins, all of Phoenix, as well as 27 grandchildren, 78 great-grand children, and 2 great-great grandchildren, (with more on the way!) He was preceded in death by his wife, parents, sister, son (Bradley), and daughter (Roxanne), and friends and relatives too numerous to mention. He was loved by a myriads of people from all walks of life, and will be deeply missed. Happy Trails!!

Lewiston went postward with odds of sixteen to one. He was four deep into the turn, when jockey Adolfo Morales reached the front on the bend and raced between rivals turning for home. Lewiston battled for the lead and was brushed passing the eighth pole, then finished gamely to prevail over a field of ten horses to win the ATBA Sales Stakes (colts division) by three-quarters of a length. The favorite Gadsden Purchase, battled for the command a furlong out while head and head with Lewiston, but yeilded grudgingly.

Hip number 59, an Arizona-bred dark bay/brown gelding sired by El Roblar, was consigned by Fleming Thoroughbred Farm, Agent for Keri Williams, to the ATBA Sale in 2010. He was a buyback, but was later purchased by Owner/Trainer, Don Schnell. He certainly has the heart of a winner and was rewarded with a purse of \$51,028. Numerous friends filled the winners circle, sharing in an exciting day at the races.

Congratulations to all the connections. A job well done!!! ❖

## Fall Yearling & Mixed Sale Results

There are a few conventional ways that a person can acquire race horses, one is to purchase at auction, from a claiming race, or you can breed and raise your own crop. The A.T.B.A., held a well stocked auction at the Westworld Equidome in Scottsdale, Arizona, on Thursday, October 18, 2012. Excitement was brewing as the first consignor lead out an outstanding yearling colt sired by Rocky Bar.

Quality was the theme of this years A.T.B.A. Yearling & Mixed Sale. It brought new owners, buyer and trainers from many states to purchase these yearlings. Buyers optimism was at a high level as, 101 yearlings passed through the sale ring and buyers rewarded the consigners. Our consigners brought some well bred, conditioned yearlings to the sale and many were purchased at an average price of \$7,400.

(Above Photo of Hip number 31)  
Yearling bay filly by Mineshaft / Rare Elegance sold for \$49,000.

Our Sale Topper was consigned by H & E Ranch, Hip number 31; a bay filly by Mineshaft out of Rare Elegance, sired by Forestry. She entered the sale ring, looking sharp as Auctioneers T. Scott Caldwell and Cris Caldwell had no trouble getting bids, with the final drop of the gavel at \$49,000. David Wolochuk purchased this fine filly.

Mr. Wolochuk was one of our top buyers, as he continued to raise his hand to purchase a few other yearlings. David purchased Hip number 81 a dark bay/brown colt by Jet West out of Frequent Flyer, consigned by Kelly -Yearsley Equine LLC.

Mark Breen purchased four top yearlings from our sale. Three yearlings were consigned by Fleming Thoroughbred Farm. Mark bid \$24,000 for a chestnut colt named “Favicon” sired by Lucky Pulpit, and a gray colt by Corinthian for \$37,000, consigned by Hidden Springs Ranch.

Dennis and Norine Grenier purchased a bay colt named “Lionel” sired by Cowboy Cal for \$11,000, and Karl Myers purchased a bay filly named “All Said and Done” sired by Leading the Parade for \$10,500. These fine yearlings were also consigned by Fleming Thoroughbred, who had the largest consignment of yearlings and broodmares at our sale. Molly Pearson, Agent purchased Hip number 59. A bay gelding named “Denton” sired by Benton Creek for \$13,000.

H & E Ranch had another strong looking yearling, purchased by Connie Phillips for \$38,000. A chestnut colt by Flashy Bull out of a Stakes winning mare Burst of Autumn, by Arctic Blitz. She has two black type Arizona bred foals, a filly named Lucky Autumn and a colt named One Call. One Call, won the 2011 Walter Cluer Memorial Stakes and was a champion three-year old colt in Arizona, with earnings over \$171,000. Lucky Autumn, earned over \$64,000 in her racing career.

(Above Photo of Hip number 68)  
A chestnut colt by Flashy Bull out of the Stakes winning mare Burst of Autumn, sold for \$38,000.

Hip number 6, was also purchased by Connie Phillips for \$8,000. A chestnut colt by Act of Duty out of a Meadowlake mare. Madame Meadowlake won over \$100,000 in her racing career and has produced eight foals, seven to race with five winners, including Shane Jules with earnings of \$187,310, (set new track record at Gulfstream Park - 5 1/2 Furlongs in 103.0).

The University of Arizona had an unfortunate incident with a sick horse amongst their consignment. All of the University’s Yearlings, were withdrawn as a precautionary measure.

Dr. Mark Arns and a few students, showed up at the sale to set up a tent and showed off their consignment on their computer. We are happy to report that all the yearlings were offered at private treaty and have been sold. Many Thanks, to all the horsemen who supported the University of Arizona Equine program. Without your help this program would have suffered a huge loss. ❖

What can you say about **Pages Springs?** Wow! Awesome! Awe Inspiring! Every owner has hopes and dreams for a Thoroughbred like this filly. Sawyer Cattle Company and Dan McFarlane make a good racing combination.

Jockey, Ann Von Rosen entered the gate on Pages Springs hoping to duplicate her other races here. When the gates opened, Page Springs sprinted clear to set the pace with a 6 1/2 length lead at the quarter pole. She held a large margin between the field and won with a driving finish.

After her summer away from Arizona, this saying, "Courses for horses" must be true for Page Springs. This brilliant filly feels right at home racing at Turf Paradise, as she took charge of Princess of Palms Stakes. Congratulations to all of the Page Springs winning connections! ♦

# Track Talk

**Russ McKinney**, passed away on Saturday, September 29th. Memorial services were held at Turf Paradise, Oct. 17th. Condolences to his family.

**Turf Paradise** started off a little slow, as far as horses coming in. Lots of new **faces** from various states and the Canadian trainers have filled the stalls.

**Ralph Andersen**, passed away after a long illness. Services were held at Turf Paradise. He will be greatly missed.

**John Soto** had by-pass surgery. Wishing him a fast recovery.

**Lyman Rollins**, passed away at home. Services were held at the Rose Garden Stakes Center. Condolences to his family

**Bonnie Peltier** had surgery on Nov. 6th. We hear she is on the mend, hoping she has a speedy recovery.

No trials were held for the ATBA Fall Sales Stakes, or for the **Arizona Thoroughbred Breeders Futurity**. The **AZ Breeders Futurity** had only 10 head entered in the fillies division and 9 horses in the colts and geldings division. The futurity to be held November 24th. Good Luck!!

**Blake Marshall** passed away November 3rd. There was a

viewing and funeral in Minersville, Utah.

A Bankruptcy court on Oct. 30th approved the tentative sale of **Yavapai Downs** racetrack to Gary Miller for \$5.5 million. Horsemen are looking forward to a 2013 race meet!

**Horsemen's Thanksgiving** Dinner was held on Wednesday, November 21st, at 11:00 a.m. - 2:00 p.m.

**Global Symposium of Racing**, was held in Tucson, Arizona. This years focus was on "**What's critical to the Racing Industry**" integrity, image, interactive networking and international collaboration.

**Special Thanks** to the following people who worked to make the ATBA Yearling & Mixed Sale successful.

This quarter we are featuring  
**Kailee Zimmerman**

Balancing her time is a priority for 11 year old Kailee. She is a straight A student, active member of her church, fiddle player, livestock exhibitor and a fan of thoroughbred racing.

Kailee had an especially busy calendar, working as a bid runner at the October ATBA Yearling & Mixed Sale, and also showing cattle at the Arizona State Fair. She exhibited the Grand Champion Feeder Steer, and won the buckle for Champion Junior Beef Showman. She was also the third highpoint individual in the Livestock Judging Contest.

Kailee loves the process of raising thoroughbreds and then watching them race. She has a comprehensive understanding of pedigrees, animal health and is a great record keeper. In her spare time, she loves to ride her ex-race horse, Radrod. She plans to continue her involvement with horses and livestock and become a large animal veterinarian. Kailee shows the aptitude and work ethic to achieve her goals.

**Congratulations to Kailee,**  
our first Kids Korner, featured young horsewoman!!

# ARIZONA THOROUGHBRED BREEDERS ASSOCIATION

The A.T.B.A. was organized in 1967 as a non-profit organization “dedicated to the betterment of the Thoroughbred industry in the State of Arizona”. Since 1967 the Arizona Thoroughbred Breeders Association has had an influence on almost all aspect of racing laws and regulations which has benefitted all horsemen running in the State of Arizona.

The goal of the Arizona Thoroughbred Breeders Association is to serve its membership and to grow into a strong viable organization with the ability to purchase land and build our own sales pavilion.

Fifteen directors serving for three years each on a rotating basis, govern the policy of the Association. The directors also assume duties during the year such as attending Arizona Racing Commission meetings and attend legislative matters pertaining to our industry.

The main source of income for the A.T.B.A. is our annual fall Thoroughbred mixed sale. Consignments come from all over the western part of the United States. All yearlings that are consigned and pass through the sale ring become eligible for the A.T.B.A. Spring & Fall Sales Stakes which are run the following May and October as 2 years old with an estimated purse of \$75,000. (May - \$25,000 bonus paid to an Arizona-bred winner, October - \$100,000 bonus paid to an Arizona-bred winner)

Attention  
ARIZONA STALLION OWNERS  
Keep your Stallions progeny eligible!

Stallion Owners;

*Any stallion that stands the entire breeding season in Arizona, and files a copy of the The Jockey Club Report of Mares bred for that breeding season with the ATBA office, that stallion (s) offspring will be eligible to race in the Stallion Stakes Derby.*

What this means to you as a stallion owner.

- *All 2014 foals of Arizona Stallions (standing the full 2013 breeding season in Arizona) will be eligible to enter the 2017 Stallion Stakes Derby. This should create an exciting race as there are no early nominations, or late fees.*
- *Stallion owners must send a copy of the Jockey Club Report of Mares Bred to the ATBA office each breeding season. This is mandatory if your stallions offspring is to have the opportunity to participate.*
- *Foals need not be Arizona-bred, but must be by a stallion standing the full season in Arizona and a copy of the Report of Mares bred on file with the Arizona Thoroughbred Breeders office.*

The Arizona Stallion Stakes Derby is a restricted race for the offspring of Arizona Stallions.

If you have any questions do not hesitate to call the office, (602) 942-1310

PEDIGREE CROSS INDEX

This Pedigree Cross Index allows a breeder to nick, inbreed or outcross his broodmares by easy reference. Indexed are the names of sires and dams included within the first three generations of all the stallions in the 2013 Stallion Directory.

Example: FAPPIANO - Desert Prospector, Distorted Reality.

In the above example, Fappiano appears in one of the first 3 generations of both the stallions listed after him.

Suppose a breeder has a mare that is a granddaughter of Mr. Prospector or has crosses of that sire in a mare's pedigree. He may want to breed her to a stallion with Northern Dancer blood to take advantage of the Northern Dancer--Mr. Prospector nick. By looking up "Northern Dancer" in this index, he can quickly see all the stallions in this register that have Northern Dancer appearing in one of the first three generations of their pedigrees.

If a breeder's mare is a granddaughter of Seattle Slew, he may wish to inbreed to that stallion and thereby get more of Seattle Slew's makeup in the foal. By checking "Seattle Slew" in the index, the breeder can readily find all the advertised stallions that have Seattle Slew in their pedigrees.

What if a breeder's mare is already inbred or linebred? She might have 2 or 3 crosses of Deputy Minister in her first four generations for example. The breeder may want to make sure the stallion he chooses for his mare has no Deputy Minister or no Deputy Minister up close in his pedigree. By looking up "Deputy Minister" in the index, he can readily see the stallions in this Stallion Register he should avoid for his mare.

The Moon Through the Signs

Of all the theories and systems that have been used by man to help understand life around him or guide him, the oldest is astrol-ogy. Ancient shepherds, nomads, and mariners knew the importance of recognizing the stars in the sky. At that time, there was no distinct boundary between art, science, and religion, so the stars were remembered by their rela-tionship to other stars, the names of these constellations being suggested by stories and religious imagery of the time. It was also re-alized that the night sky was not static and unmoving, but shifted over the course of the year.

Certain bright con-stellations were found to be evenly spaced over the year, in a belt approxi-mately 18° wide. Also in this belt was the the monthly path of the moon as it re-volved around the earth. (It is actually this lunar procession through the constel-lations that controls the “sign” described here. The lunar move-ment occurs on a 28-day cycle, and re-sides in each sign for

two to three days each month.)

This belt was later divided into 12 signs, each named after its most prominent con-stellation. Since all but one of these constel-lations was named after a living thing, this belt became known as the zodiac, or “zone of animals.”

As early as 1300 B.C., according to the Gri-ers Almanac, charts were developed which identified parts of the body with certain signs. Farmers have an obvious interest noting the

passing of the seasons and early on began to note certain favorable times to perform certain tasks. In the absence of a university extention agent in ancient Abyssinia, the farmer took note that rams castrated in the sign of the feet (Pisces) bled less and healed faster than those castrated when the sign was in the head (Aries).

Without debating the practicality of this con-cept, we offer these ancient rules gleaned from various sources:

- Weaning—In the signs of Sagittarius (thighs), Capricorn (knees), and Pisces (feet).
- Castration—Sign in the feet (Pisces).
- Cut hay—Hay will cure better if cut in the darkening of the moon, that is, the 14 days after the full moon.
- Dig post holes—If you dig a post hole in the growing of the moon, there will be dirt left over and the post will never be truly tight. But a hole dug in the dark of the moon will leave no extra dirt and the post will be tight “as if it had rooted there.”
