# The New Tax Law and the Horse Industry

by John Alan Cohan, Attorney at Law

**T**he new tax law signed by President Trump, called the Tax Cut and Jobs Act (TCJA) has several provisions beneficial to owners and breeders in the horse and livestock industries. I will discuss some of the highlights.

## NEW DEDUCTION FOR PASS THROUGH BUSINESSES

The new law changes how “pass-through” entities, such as sole proprietorships, partnerships, corporations and LLCs are taxed. This includes 85% of owners in the horse and livestock industries. Now, for the first time ever, owner’s qualified business income (QBI) from pass-throughs is allowed a 20% deduction, subject to restrictions that can apply at higher income levels. This constitutes a 20% tax cut for pass-through filers. QBI is generally defined as the net amount of qualified items of income, gain, deduction and loss from any qualified business of the noncorporate owner. (QBI does not include certain investment items, reasonable compensation paid to an owner for services rendered to the business or any guaranteed payments to a partner.)

Also, the new law provides the top rate on income earned by owners of pass-through business at 37% --which is a slight reduction from the former 39.6% rate.

The pass-through provisions are an incentive for employees to become independent contractors. Many personnel working in the horse and livestock industries are already independent contractors, such as a trainers, laborers, farriers, veterinarians, vendors, etc.

## IMMEDIATE EXPENSING AND BONUS DEPRECIATION

For property placed into service in tax years beginning after December 31, 2017, the new law increases the maximum amount a taxpayer may deduct (or “expense”) to \$1 million, and increase the phaseout threshold to \$2.5 million.

The “bonus depreciation” deduction for breeding stock, race horses, farm machinery and equipment will now be 100%, an increase from the former 50% rate, for property, placed in service after September 27, 2017. This applies to new or used property purchased by the taxpayer. (Starting in 2023, bonus depreciation will go down to 80%)

## ESTATE TAX

The long-disputed estate tax has been modified so that the former exemption of \$5.49 million. This will greatly reduce the number of family businesses susceptible to the estate tax.

## NEW CORPORATE TAX RATE:

For operations conducted as C corporations, the new law reduces the corporate tax rate from 35% to 21%. Many large breeders and ranchers, as well as racetracks, conduct business as C corporations.

## LIMITATION ON LOSSES

These are stricter rules for deducting losses. The maximum amount of taxable income that can be offset with net operating loss (NOL) deductions is generally reduced from 100% to 80%. NOLs can be carried forward indefinitely. However, NOLs can no longer be carried back to an earlier year, except for certain farming losses, which can be carried back for two years.

The “hobby-loss” rules remain the same in terms of the taxpayer’s need to prove that the activity is engaged in for profit if there is a history of losses. This means that, it is important not only to keep records to prepare accurate income tax returns, but to also keep records that measure your activity’s financial performance.

The IRS is already grappling with a prolonged funding cut, a staff reduced by 23% since 2010, and outdated computers. The IRS will need to write countless guidelines and regulations to clarify key terms and concepts in the new law, as well as design new forms. Thus, enforcement and auditing capabilities are likely to drop significantly. ♦

T – Kevin Eikleberry

**Margin:** 2 lengths, Others: Way Out, Isay Yes & Revy Set Go.

Six three-year-olds drew into the Arizona Stallion Stakes going seven and one-half furlongs on the turf. Kevin Eikleberry loaded the field with four entries. All foals in this race were sired by Ez Effort which stands at Fleming Thoroughbred Farm, LLC in Willcox, AZ. Bonita Boss Eikleberry's other gelding ridden by Leslie Mawing was the morning line and gamblers favorite. John Arnold attracted a morning line of 4/5. Bonita Annie, a filly ridden by Daniel Vergara began her odds at 6/5.

## JOHN ARNOLD – RACE AND (STAKES) RECORD

Year	Age	Starts	1st	2nd	3rd	Earned
2017	at 2	5	2	1	0	\$21,397
2018	at 3	3	1 (1)	0	0	\$18,986

John Arnold is a very honest gelding. He moved inside early while clear, was rated while vying for the lead, drew clear when asked by Scott Stevens in upper stretch then was hand urged maintaining a safe margin. Feigenbaum's Bonita Annie finished second, Eikleberry & Fleming's Bonita Boss was third, Story's Way Out finished fourth, I say Yes was fifth and Revy Set Go rounded out the field. ♦

Many thanks to **Tony Toporek**, Director of Television Operations and **Pat Oviedo** who coordinated the racing film of each winning horse. You truly showcased the champions.

**President Marvin Fleming** welcomed everyone to the awards banquet, then opened the general membership

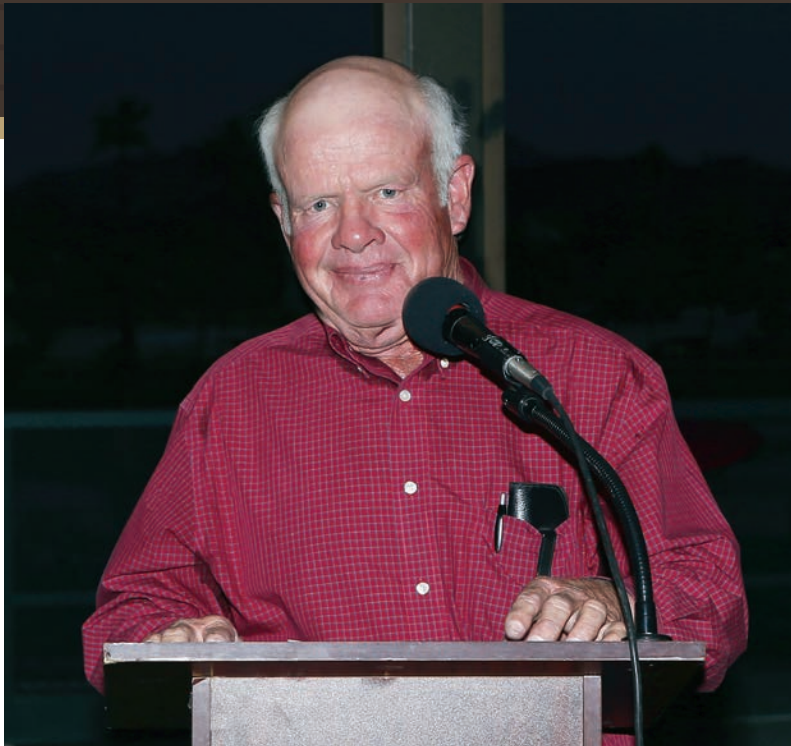

meeting. President Fleming recognized Berdette Felipe for her 20 years of service to the ATBA. Each year guests are wondering what witty story Marvin is going to tell. This year he told of his method of teaching Wende the right & left side of a horse. Because when looking at the horse her left is the horses right and vice versa. So, finally we came up with consider the horse as her vehicle, and agreeing that the horses head is the front of the vehicle, the left is the driver side and the right is the passenger side. Everything was good for a while until the other day, when she came to me and said "that one of the yearlings in the pasture by her house had a cut by the back door on the passenger side of the front hock. So we had to scrap the vehicle theory and now we use a paper drawing of a horse, X with a felt marker. Marvin's dad Gene was the best joke teller, he must have gotten that from him. **Marvin Fleming** motioned the meeting adjourn and **Ron Allen** seconded the motion. Then turned the balance of the evening over to ATBA Secretary/Treasure **Wende Macumber**, who served as the emcee for the evening. ♦

## JOANNE DYE BREEDERS OAKS

If she was here today, she would remind us how important it is to be a good representative in our sport. Joanne continued that outstanding support until her health forced her into retirement. She was a major force behind Arizona Thoroughbred Training Center. She served as Director, Vice President and President of the Arizona Thoroughbred Breeders Association. The list of committees she was asked to chair was varied and always successful - thus the Joanne Dye Stakes. It is only fitting that a race should be named for her honoring Arizona-breds.

2018	at 3	4	1 (1)	1 (1)	0	\$31,296
Career		8	3	2	0	\$104,856

Leaving no doubts as to her bona fides, prohibitive 1-5 favorite Foggia (\$2.40) led from start to finish with extremely confident Francisco Arrieta aboard for Sawyer Cattle Company and trainer Dan McFarlane. Foggia had 4 1/4 lengths on runnerup Myrcella with Shesaheatwave third in the field of seven 3-year-old fillies.

Another progeny of prolific sire Rocky Bar (2017 Stallion of the Year), Foggia covered the 7 1/2 furlongs over a firm turf course in 1:30.27. It was the third win in eight starts for Foggia who now has earnings of \$104,856. She was named 2017 Champion Arizona-Bred two-year old Filly & 2016 ATBA Sale Arizona-Bred Leading Filly Earner.

**Foggia** sprinted clear to set the pace and drew off in the drive under mild urging. **Myrcella** bumped at the start, chased the pace, couldn't gain ground and was no match for the winner. **Shesaheatwave** raced close to the pace, went four wide leaving the turn, leveled off in the drive and held safely for show. **Uh Oh Seven** broke in and bumped at the start, raced in the back, bid along the rail on the turn and had nothing left for the drive. **Bonita Annie** raced mid pack, went five wide entering the stretch and gave way. **My Crafty Gal** broke slowly, was rated back, failed to contend and was not urged through the stretch. **Hey Roxy** broke awkwardly, was through after a half and not urged through the stretch. ♦

### DWIGHT D. PATTERSON HANDICAP

# THE JOCKEY CLUB ADD \$35.00 TO SUPPORT AFTERCARE

The Jockey Club reminds Thoroughbred breeders that digital foal certificates will be replacing hard copies of foal certificates beginning with the 2018 foal crop. The transition to digital foal certificates was first announced at the Round Table Conference on Matters Pertaining to Racing on August 14, 2016.

Breeders, as well as those who act as agents for breeders, who do not already have an Interactive Registration account should sign up for one at [registry.jockeyclub.com](http://registry.jockeyclub.com) (<http://www.registry.jockeyclub.com/>).

"We encourage those who manage Certificates of Foal Registration to sign up for an Interactive Registration account between now and early 2018 if they have not already done so," said Matt Iuliano, executive vice president and executive director of The Jockey Club. "The use of digital foal certificates will allow foal papers to be easily transferred between entities at the click of a button, and we are looking forward to implementing this much-needed change."

"We applaud The Jockey Club for pursuing this digital initiative which, given the number of certificates we manage annually, will create operational efficiencies for Keeneland and greater convenience for horsemen worldwide," said Bob Elliston, vice president of racing and sales for Keeneland Association.

More information about digital foal certificates will be made available in early 2018 before they are officially launched in the spring.

The Jockey Club, founded in 1894 and dedicated to the improvement of Thoroughbred breeding and racing, is the breed registry for North American Thoroughbreds. In fulfillment of its mission, The Jockey Club, directly or through subsidiaries, provides support and leadership on a wide range of important industry initiatives, and it serves the information and technology needs of owners, breeders, media, fans and farms. It is the sole funding source for America's Best Racing, the broad-based fan development initiative for Thoroughbred racing. You can follow America's Best Racing at [americasbesttracing.net](http://americasbesttracing.net) (<http://americasbesttracing.net/>). Additional information is available at [jockeyclub.com](http://jockeyclub.com) (<http://jockeyclub.com/>).

## 2018 Turf Paradise Open Spring Futurity CALL WAITING

**D**espite the very hot temperature, the field came to the paddock on their toes. **The Turf Paradise Open Futurity** was a big success. The most impressive winner of the three trials was the Scott Rollins-trained colt **Call Waiting**, who won his maiden race by 7 1/4 lengths over seven rivals in his heat and then one back in the finals to impress again. the drive. **Az Dreamer** drew clear early, set the pace and weakened in the drive. **Keyson** in close and brushed at the start, chased on the turn, was five wide into the lane and needed a late response. **Let Me Fly** broke a bit slowly, raced between foes into the turn and needed a stretch bid. **Shady Lane** bumped with a foe entering the turn, raced six wide into the stretch and weakened. **Justagambol** was checked along the inside on the turn, stayed inside and weakened in the drive. **My Leap of Faith** raced along the inside through the lane and lacked a rally. # ARIZONA STALLION STANDINGS

Statistics compiled by Bloodstock Research Information Services, Inc., and cover North American racing only. While every effort is made to prevent errors and omissions, Arizona Thoroughbred can not guarantee their complete and total accuracy. Included are sires based in the state of Arizona. Deceased, retired or relocated sires will remain in the rankings until after their last Arizona sired runners have raced as two-year olds.

# CAUSES OF FOAL MORTALITY A ONE-YEAR SNAPSHOT

Department of Veterinary Science • Maxwell H. Gluck Equine Research Center • University of Kentucky

**N**eonatal losses are a significant problem for the equine industry. Of the 1,294 fetal, neonatal, and juvenile equine cases presented to the University of Kentucky Livestock Disease Diagnostic Center from September 2004 through August 2005, 259 cases of neonatal mortality were evaluated for this study. Cases included only those that resulted from a live birth and those that had a specific age of less than 180 days, with cases in which the animals' age was listed as "juvenile" being excluded.

## DEATHS UP TO 30 DAYS

The majority of all neonatal deaths occurred by 30 days of age (174/259, 67%). Of these, the top five causes of death include septicemia (44/174, 25%), musculoskeletal issues other than rib fractures (29/174, 17%), pneumonia (25/174, 14%), gastrointestinal problems (19/174, 11%) and rib fractures (18/174, 10%). All deaths from rib fractures occurred in this age bracket. (Rib fractures can result from multiple factors, including dystocia and trauma.)

## ALL NEONATAL DEATHS (Up to 180 Days)

Of the 259 cases, septicemia was the predominant killer, causing 21% of all deaths (54/259). Of these *Escherichia coli* (17/54, 31.5%) was the primary single organism grown from cultures obtained from septic animals; however, mixed cultures (17/54, 31.5%) were equally significant.

Deaths from musculoskeletal problems accounted for 51 (20%) of 259 cases, with 33 cases attributed

to fractures. Trauma, other than those resulting in fractures, accounted for an additional nine cases of mortality.

When gastrointestinal problems (42/259, 16%) were identified as the cause of death, ulcers (9/42, 21.5%) and colitis (8/42, 19%) were the top two diagnoses.

Of the 15% of cases attributed to pneumonia (40 of 259), cultures failed to yield growth in 40% (16 of 40) of the cases. This could be attributed to treatment with antibiotics or to a viral or fungal etiology.

*Rhodococcus equi* was cultured from 13 of the 40 (33%) pneumonia cases.

While the majority of the musculoskeletal causes cannot be prevented, improvements in orthopedic therapy allow for better outcomes.

Prevention may be the best option for reducing deaths due to infectious etiologies, as foals are uniquely susceptible to infectious diseases. Therefore, it becomes imperative that veterinarians continue to educate horse owners and farm managers about vaccination, hygiene, and early recognition of clinical signs. More inclusive studies are currently being investigated on foal mortality. ♦
